

Creating Compelling Charts: A Picture is Worth a Thousand Words

Webinar Presentation

Russell A. Sabella, Ph.D., Florida Gulf Coast University

rsabella@fgcu.edu

Description: School Counselors, Administrators, and other Educators are compelled to make data driven decisions, monitor student achievement, and communicate results. Initiatives such as the ASCA National Model™ and RtI include these as critical components of an overall school counseling program. This workshop will help counselors understand the differences among various charts and their appropriate uses. This "nuts and bolts" training will also show participants how these charts are created and customized using Microsoft Excel and other productivity tools.
